ECCLESIA LAW

POPULAR IDEOLOGIES AND BELIEFS CIRCULATING IN THE FREEDOM COMMUNITY

DO THEY WORK

IF NOT, WHAT DOES

27th February 2026

The contemporary landscape of administrative law is defined by a fundamental bifurcation between biological reality and juridical construction. While movements such as the "Freeman on the Land" (FOTL), "Sovereign Citizens," and "Common Law Adherents" correctly identify that the state has "corporatized" its interaction with the people, they almost universally fail to navigate the system effectively. Their arguments are often categorized by the judiciary as "Organized Pseudo-legal Commercial Arguments" (OPCA), yet research suggests these practitioners have it "nearly right." Their fatal error is not in identifying the deception, but in failing to comprehend the law of **Agency** that binds the living man or woman to the birth certificate construct.

The 1933 Bankruptcy and the Monopoly Board of Commerce

A core truth often dismissed by the mainstream but confirmed in forensic analysis is the **Bankruptcy of the United States**. Following the suspension of the gold standard in 1933 and the enactment of **House Joint Resolution 192 (HJR 192)**, the global commercial system entered a state of permanent reorganization. In this state of perpetual bankruptcy, the government removed the ability for people to "pay" debts with substance (gold/silver), leaving only the ability to "discharge" debts using credit-based substitutes, such as Federal Reserve Notes.

The commercial world now functions like a "Monopoly Board." Because the state holds the legal title to all property as security for the national debt, the living man is merely a "player" who "rents" the artificial construct—the "player piece"—from the state. The "Agency Trap" closes when an individual believes they *are* the piece, rather than the operator, thereby accepting unlimited liability for a bankrupt entity owned by the "Cabal."

ECCLESIA LAW

The Agency Trap: The Living Soul vs. the Birth Certificate Construct

The "Two Yous" concept is the ontological bedrock of this system. Adherents utilize a technological metaphor to explain this division: the **body is the hardware**, and the **mind is the software**, while the **Spirit** is the user that animates the vessel.

- **The Living You:** The biological, sentient being that breathes, thinks, and creates. This is the source of all "credit energy" that powers the financial system.
- **The Artificial You:** A legal construct, corporate person, and registered decedent estate created via the birth certificate.

The 1933 Tripartite Trust Enclosure

Forensic analysis of ecclesiastical and positive law canons reveals that since 1933, the state creates three separate **Cestui Que Vie Trusts** upon the birth of a child to ensure total enclosure:

1. **The 1st Trust (The Corporate Person):** Created by registering the name on the birth record, conveying the child's beneficial entitlements into a registry number and creating the artificial "person" denied of real property rights.
2. **The 2nd Trust (The Chattel Trust):** Created by claiming the baby as chattel to the estate through the "slave baby contract," often involving ink impressions of the feet or a drop of blood on the birth record, tricking parents into signing away the child.
3. **The 3rd Trust (The Ecclesiastical Trust):** Rooted in a 1540 Papal Bull, this trust is created via the Baptismal Certificate, conveying the "soul" to the Roman Cult. Since 1816, this has been managed by the Temple Bar as "Grim Reapers" responsible for reaping the souls in commerce.

The Cestui Que Vie Act 1666 and the 'Lazarus Taxon'

The **Cestui Que Vie (CQV) Act 1666** is the historical mechanism for this identity theft. Enacted after the Great Plague and the Great Fire of London, it allowed the Crown to presume individuals "lost at sea" or dead if they did not appear for seven years. This resulted in the state seizing their property and holding it in "Invisible Trusts."

In modern application, this creates the **"Lazarus Taxon"** scenario (Back from the Dead). The system presumes you are "civilly dead" and that your estate is abandoned. Proponents of the "Lazarus" approach argue that one must "return from the sea" by providing Proof of Life (a Living Will) and majority to reclaim the beneficial interest in the estate. Until this status is corrected, the individual remains a "pauper" or "ward" under the state's guardianship.

ECCLESIA LAW

The Twelve Presumptions of the Roman Court

The judiciary does not operate on true law, but on **rebuttable presumptions** from the "private Bar Guild." If these are not challenged, they stand as "truth in commerce":

1. **Public Record:** That the matter is public, when it is actually private Bar business.
2. **Public Service:** That Bar members are public servants despite their secret oaths to the Guild.
3. **Public Oath:** That officials act fairly according to their public oath.
4. **Immunity:** That judges and prosecutors are immune from liability.
5. **Summons:** That attendance in court constitutes consent to jurisdiction.
6. **Custody:** That you are a "thing" or property (the PERSON) that can be detained.
7. **Court of Guardians:** That you are a pauper and a lunatic under government "Guardian" powers.
8. **Court of Trustees:** That you accept the office of trustee by appearing.
9. **Government as Executor/Beneficiary:** That the judge is the Executor and the Prosecutor is the Beneficiary.
10. **Executor De Son Tort:** That you are a "false executor" if you try to speak for your soul.
11. **Incompetence:** That you are ignorant of the law and cannot represent yourself.
12. **Guilt:** That the "meeting" is a private matter where you are already presumed guilty.

High-Level Sovereign Declarations and Universal Authority Protocols

Analysis of specialized movement documents reveals the use of comprehensive, ritualized affidavits designed to unilaterally rewrite the individual's legal reality and assert authority from non-terrestrial sources.

The Albion Foundation Affidavit and the Corporate D-U-N-S Matrix

The **Albion Foundation Protocol** involves a "Statement and Asseveration of True Facts" designed to deconstruct the state's corporate identity.

- **Inherent Universal Suv'eranty:** The deponent identifies as a "soul" acting through the living being in a state of "inherent universal suv'eranty."
- **D-U-N-S Identification:** This protocol targets the commercial reality of government agencies by citing their **D-U-N-S (Data Universal Numbering System)** numbers (e.g., Prime Minister's Office D-U-N-S 218112723, Royal Courts of Justice D-U-N-S 22741958). By identifying these bodies as "for-profit corporations" or "non-living entities," the deponent argues they lack any inherent authority over a living soul.
- **Rejection of Joinder:** It explicitly renounces any "joinder" to the statutory person and bars any court from assuming the role of "trustee" for the soul's estate.

ECCLESIA LAW

Instruction Pronuntio Restitutum: Reclaiming the Soul

The **Instruction Pronuntio Restitutum** is an administrative command to officials to cease the "capture" of the deponent's identity.

- **Lawful Slavery Disclosure:** The deponent demands that officials disclose whether the controls they are exerting constitute "Lawful Slavery."
- **Exodus 21 and Fundamental Law:** Citing the "fundamental law" of Exodus 21, the protocol asserts that the capture of a soul is a capital offense. It informs agents that they will be held personally and commercially liable for any further "personage" or "barratry."
- **Cancellation of Records:** It requires the return of all "original records" (such as birth records or summons) canceled and signed as evidence that the officials have complied with their fiduciary duties.

The Baron David Ward Affidavit Statement

Baron David of the House of Ward issued a definitive "Decree" on March 20, 2015, declaring that the "satanic Roman Empire is no more." This protocol is characterized by:

- **Cost Estimation of Fraud:** Ward estimates the cost of administrative and judicial crimes against the people to be in the region of **£4,037.25 Trillion** over the past 35 years.
- **The Warrington Victory:** The ideology frequently cites Case Authority WI-05257F (David Ward v. Warrington Borough Council). Adherents claim that when the council cancelled a Penalty Charge Notice (PCN), it was actually a tacit admission that they could not provide evidence of the "consent of the governed."
- **Rebuttal of Secret Ballots:** The affidavit characterizes the secret ballot as an "abomination and deception," arguing that government has no legitimacy without material evidence of consent on the public record.

The A6.1 Freedom and Morgan Protocols

These protocols move beyond civil law into cosmic and biological capacity, asserting that the individual is a "Divine Spirit having a human experience."

- **Capacity as Galactic Emissary:** The deponent identifies as a "cosmic consciousness" acting through the living vessel. They claim authority from **"Higher Galactic"** and **"Universal Councils,"** asserting they reside on "Terra Australis."
- **DNA and Image Copyright:** The affidavit asserts copyright ownership over the deponent's **DNA** and visual image. Any unauthorized recording is treated as a commercial breach.
- **Renunciation of Justinian's Code:** It explicitly renounces the *Corpus Juris Civilis* and any authority of the "See of Rome," "Admiralty Law," or "Roman Law" unless a wet-ink contract is produced.

- **The £50,000 Fee Schedule:** The protocol establishes a non-negotiable **"Schedule of Fees for Remedy."** This includes an engagement fee of **£50,000 GBP** per agent/employee for any unlawful interaction, and £50,000 per day for deprivation of liberty or remand.

Analysis of Guru Methodologies and Failed Tactics

Govinda Tidball and the 'Lawful Redemption Declaration'

Tidball utilizes **UCC-1** and **UCC-3** filings to establish an "irrevocable claim" over all assets and derivatives tied to "fraudulent" birth certificates. He issues **Notices of Liability (NOL)** to institutions like the Texas Vital Statistics Section, claiming that a failure to rebut within 30 days constitutes "tacit agreement" to fraud and commercial dishonor.

Charles Fernandez and the 'Willoughby Genius'

The "Willoughby Genius" and "Pixbusters" Progressive Web Apps (PWAs) attempt to automate litigation. "Pixbusters" uses **Subject Access Requests (SARs)** to demand CCTV footage; if they fail to respond, the app auto-generates a small claims filing for £1,000 for "distress". While technically possible, courts often view these as vexatious "cookie-cutter" claims.

The Winburn Protocol (Court Case Killer)

This strategy misinterprets the Michigan case *People v. Winburn (2025)* to claim that trial courts are "divested" of all jurisdictions once a defendant files an appeal or a "Notice of Fault".

Don Kilam and the 'Traded Security' Theory

Kilam argues that court cases are financial instruments traded via the **DTCC**. He prescribes using federal construction contracting forms (**GSA SF-24, SF-25**) to "bond" criminal cases.

World Martial Authority (Lee Clegg / Lamont Belton)

The WMA claims to be the "highest law enforcement authority" on Earth, superior to the UN and ICJ. They assert a £140 trillion judgment against the UK government and promise citizens monthly payouts. These claims lack any treaty-based origin or recognition.

Karl Lentz and 'Performative Obstructionism'

Lentz teaches that one should never answer to the "person" name and instead demand to meet the **"Injured Party."** While the philosophy of the "man vs. person" is rooted in history, this approach fails because statutory law recognizes the "State" as the injured party for *malum prohibitum* offenses.

ECCLESIA LAW

Common Law and Constitutional Ideologies

Clive Edwards and the 'Capillary Wave'

Edwards' platform, the **Capillary Wave**, posits a binary paradigm: "Britain" (the physical land/lawful) vs. "The United Kingdom" (the corporate body politic/legal). He identifies the **Authorized KJV 1611 Bible** as the highest authority on law, citing the *Confession of Faith Ratification Act 1560* as making the Bible "infallible truth".

Magna Carta Article 61 (Lawful Rebellion)

Popularized by groups like the *Magna Carta Lawful Rebellion (MCLR)*, this ideology claims that subject-hood can be divested by swearing an oath to "Rebel Barons". However, Article 61 was only in force for nine weeks in 1215 and provides no modern legal immunity.

The Sovereign Project (Pete Stone)

Stone advocates a "No Contract" defence for Council Tax, arguing that since the resident never signed a contract, there is no "meeting of the minds". This is a fallacy because Council Tax is a **statutory obligation** under the *Local Government Finance Act 1992*.

Geopolitical Nullification and Administrative Trickery Ideologies

The Treaty of Rome and EU Illegitimacy

The *Treaty of Rome Invalidated* ideology argues that the European Union (EU) is a "rogue supranational entity" founded upon a fraudulent signing of the Treaty of Rome in 1957. Adherents claim that every institution, law, and regulation derived from it—including the Euro currency—is legally void.

The 1919 Australian Illegitimacy Claim

In Australia, a specialized ideology asserts that all Acts of Parliament since the signing of the Treaty of Versailles in 1919 are invalid. Adherents rely on the "Petition of Right 1627" to argue that jurisdiction, once challenged, must be proven by the court.

The Traficant Bankruptcy Proof

Adherents frequently cite the speech of Representative James Traficant Jr. in the **U.S. Congressional Record** (March 17, 1993) as proof that the U.S. government was dissolved by the Emergency Banking Act of 1933 and operates as a bankrupt entity in Chapter 11 reorganization.

The 'Kobus Method' and Mixed-Case Name Changes

A tactical variant known as the **Kobus Method** involves attempting to "trick" the administrative system through name changes from "JOHN HENRY SMITH" to "John Henry Smith" (mixed-case) to force the system to recognize the living man.

The Linguistic Trap and Procedural Defence Tactics

Brandon Williams and the '14th Amendment Person'

Brandon Williams' treatise identifies the word "person" as the "crux of most confusions" in the legal system. He argues that "person" in statutes refers specifically to subjects under the 14th Amendment who have the status of "wards" or "released slaves" of the federal government.

Personage, Barratry, and the 'Glossa' Dialect

The "Personage and Barratry" ideology claims the state uses "Glossa"—a dialect of all-uppercase English—to entrap living beings. Proponents argue all-caps text is a distinct language intended to deceive the "living man" into representing a "dead" entity.

Procedural Counter-Offensives: Quo Warranto and Perfected Orders

The "Art of Legal Warfare" employs tools to challenge authority:

- **Writ of Quo Warranto:** A sovereign demand for an officer to prove by what authority they hold their position.
- **The Paralegal Argument:** Identifies that litigation is a "reserved legal activity" under the Legal Services Act 2007; if uncertified staff conduct it, the orders are nullities.
- **Demand for Perfected Orders:** Requires every court order to be signed by the actual name of a magistrate.

Comprehensive Review of Specialized Tactical and Conspiratorial Ideologies

The Attorney Licensing Myth (The Bar Card)

Adherents argue the "Bar Association" is a private union that has illegally usurped the judicial branch. Citing *Schware v. Board of Examiners*, they claim the 6th Amendment does not grant the right to a "hearsay substitute" (a lawyer).

ECCLESIA LAW

The TDA and 1099 Debt Discharge Path

Adherents stop calling banks "banks" and instead view them as **Securities Transfer Agents**.

- **The TDA Mechanism:** Instructions to open a **Treasury Direct Account (TDA)** and "wire" securities (bills, mortgages) to the Treasury to come back "times two". The Sunday delivery of mail is interpreted as an "emergency signal" confirming this bankrupt status.
- **1099-OID and 1099-A/C:** Proponents file these forms to "charge back" debts to the Treasury.

The Ecclesiastical Identity and Galactic Emissary Status

Documents like the *Ecclesiastic Deed Poll* represent a radical shift to spiritual capacity.

- **Divine Spirit Claim:** Individuals announce themselves as the "Divine Spirit having a human experience."
- **Galactic Emissary:** Adherents claim status as an emissary residing on "Terra Australis," asserting they are not a "person" or "vessel".
- **Copyright of DNA:** Involves "copyrighting" one's own DNA to issue fee schedules against government agents.

The Vatican-Admiralty Financial Matrix (Judge Dale)

The *Judge Dale Spills the Beans* document alleges American courts are corporate offices managing a "Mutual Fund Investment" tied to birth certificates, with symbols like yellow fringe signalling that America is subject to maritime law.

Ecclesiastical Jurisprudence, Cosmic Trusts, and Parallel Governance Structures

A specialized layer of the movement utilizes high-level "Canons" and cosmic trust theories to exit statutory jurisdiction entirely.

Ucadia and the 144 Truths of Law

The **Globe Union Constitutional Charter** introduces the **144 Truths of Law**. This framework posits that there has been no true Rule of Law in Western society for over 400 years, and that current systems are layers of "tyranny, piracy, and organized crime". Adherents claim these 144 articles provide more functional legal knowledge than a $100,000 course.

ECCLESIA LAW

The Ecclesiastical Deed Poll (Robin-Egg Blue)

To effectively rebut the "Cestui Que Vie" presumptions, adherents utilize the **Ecclesiastical Deed Poll**.

- **Ritualistic Form:** The protocol requires the deed poll to be printed on **standard-sized robin-egg blue paper** and glued strongly to the reverse of a certified birth certificate.
- **Function:** This document annexes a "Pronouncement of Restitution," effectively giving "life and personality" back to the biological being.

The Annunaki [APE] Dominion Head Trust

The **"Annunaki Planet Earth [APE] Dominion Head Trust"** is a theory asserting that legal title to the entire realm is held by the successors of the Templar/Annunaki lineage.

- **Executor Status:** Adherents are taught that the state only administers their estate because they are presumed "dead" after age 25. Reclaiming the estate requires assuming the "High Office of The General Office of Executor" through a Living Will.

Operating in Multiple Capacities (Minnesota Method)

Some practitioners emphasize the use of **Assumed Name Registrations** via the Minnesota Secretary of State.

- **Attorney-in-Fact vs. Principal:** By registering the legal name as an assumed business name, the individual can appear as an **Attorney-in-Fact** rather than the private state citizen.

Parallel Common Law Courts (Utah Republic)

Shadow governance structures have been established, such as the **Superior Common Law Court of the Utah Republic**. These courts operate under manuals that reject civil state courts as "Oligarchies" and establish grand juries based on the **Ten Commandments** to reprimand public officials.

SEDM and the 'Socialist Security' Religion

The **Sovereignty Education and Defence Ministry (SEDM)** defines the state-sponsored system as a rival religion of **Humanism** and **Socialism**.

- **Enclosure and Domicile:** They argue that the IRS and DOJ use word games to "enclosure" people into the "federal plantation" by presuming a domicile on federal territory.

ECCLESIA LAW

NONE OF THE ABOVE IDEOLOGIES HAVE ANY SUCCESS TRACK RECORD!

The Advanced Monopoly Strategy: The Two You's and the Agency Trap

To win a rigged game, one must first understand that the game pieces and the players are distinct entities. The fundamental deception of the modern administrative state is the collapse of the biological human being into a corporate legal construct—the "Artificial You".[1] This bifurcation is the "ontological bedrock" upon which the entire system of global commerce rests.

The Duality of Existence

The "Monopoly board" of the legal system does not interact with biological matter; it interacts solely with "persons," which the Interpretation Act 1978 defines as "a body of persons corporate or unincorporate".[1] Upon the registration of a birth, the state creates an artificial entity—a decedent estate or trust—that acts as the "Player Piece" on the board.

1. **The Living You:** The sentient, biological being that is the source of all "credit energy".[1]
2. **The Artificial You:** The legal fiction, the registered estate created via the Birth Certificate.[1]

The "Agency Trap" is the mechanism used to bind the living human to the liabilities of the artificial construct. Through the Law of Agency, the state presumes that the human is the agent and surety for the fiction.[1] When a man or woman identifies as the "person" named on a birth certificate, they are unwittingly accepting the role of the "unlimited surety" for a bankrupt corporate entity owned by the state.[1]

The Salomon Principle Inversion

The landmark case of *Salomon v A Salomon & Co Ltd* established the principle of "separate legal personality," originally intended to protect the human from corporate debt.[1] However, in the "Monopoly" of the administrative state, this veil is inverted. The state uses the separation to create a liability-bearing piece and then bypasses the corporate veil through "presumed agency" to access the human's labor and energy.[1] The ROS strategy focuses on re-enforcing the Salomon Principle by severing the presumed agency and establishing the living individual as the "General Executor" of the estate rather than its "pawn".[1]

ECCLESIA LAW

The Art of Legal Warfare

ABSTRACT

The modern legal system is adversarial by design, yet traditional litigation often devolves into a war of attrition where victory is uncertain and costly. This paper posits a superior methodology derived from Sun Tzu's *The Art of War*: the doctrine that true victory is achieved before the first motion is filed. By rejecting the defensive posture of "arguing the merits" and instead adopting an offensive strategy focused entirely on the opponent's systemic weakness—the "Achilles Heel"—a litigant can dismantle a case not by overpowering the opponent's strengths, but by striking where they are defenseless. This paper outlines the prerequisite mastery of procedure, statute, and strategy required to execute this doctrine.

I. THE PHILOSOPHY OF PRE-ORDAINED VICTORY

"Victorious warriors win first and then go to war, while defeated warriors go to war first and then seek to win." — Sun Tzu

In the context of the legal system, "winning first" means establishing a position of invincibility before engaging the court. Most litigants enter the legal arena hoping to convince a judge of their righteousness. This is a gambler's strategy.

The Ecclesia Law approach dictates that one must never engage an opponent on their own terms. If a bank sues for foreclosure, one does not argue about missed payments (the opponent's strength); one argues about the legal standing of the trust or the securitization of the note (the opponent's potential weakness). The goal is to identify the **fatal structural flaw** that renders the opponent's case void *ab initio* (from the beginning). When such a flaw is exposed, the opponent has effectively already lost; the court process becomes merely the formality of their capitulation.

ECCLESIA LAW

II. THE PREREQUISITE: DEEP KNOWLEDGE OF THE TERRAIN

To find the weakness, one must know the terrain better than the enemy. In law, the terrain is composed of three layers:

1. **Procedural Law (The Map):** Rules of Civil Procedure (e.g., CPR in the UK, FRCP in the US) are not administrative suggestions; they are the rigid boundaries of the battlefield. A procedural error by an opponent is often more fatal than a factual error.
2. **Statutory Law (The Weapons):** Acts, Statutes, and Legislation are the tools of enforcement. However, they are often complex and misapplied by volume-based legal firms. A deep reading of the specific statute (e.g., FSMA 2000, POCA 2002) often reveals that the opponent has failed to meet a strict statutory requirement.
3. **Case Law (The Precedent):** Precedent establishes how the terrain has been navigated before. Knowing the specific case that defines the limit of an opponent's power is essential.

Strategic Mandate: You cannot exploit a rule you do not know. The master litigant studies the opponent's filing not for what it says, but for what it *fails* to say—the missing affidavit, the unsigned verification, the lapsed statute of limitations.

III. THE ACHILLES HEEL: IDENTIFYING THE FATAL FLAW

Every case, no matter how formidable it appears, has a centre of gravity—a single point upon which the entire structure rests. If this point is shattered, the case collapses. This is the Achilles Heel.

Common Legal Achilles Heels include:

- **Lack of Standing (Locus Standi):** The opponent cannot prove they actually own the debt or have the right to sue (common in securitized mortgages and debt buying).
- **Procedural Non-Compliance:** Failure to serve documents correctly, failure to adhere to pre-action protocols, or failure to plead with specificity.
- **Regulatory Breach:** The opponent is acting *ultra vires* (beyond their powers) or in violation of a regulatory prohibition (e.g., an unauthorized solicitor, a bank violating TILA/RESPA, or a barrister accepting criminal property).
- **Fraud on the Court:** The submission of fabricated or "robo-signed" documents.

The Method of Discovery: One does not find the Achilles Heel by looking at the surface of the complaint. One finds it by auditing the "chain of title," the licensure of the attorneys, the regulatory status of the plaintiff, and the procedural history. The deeper the audit, the more likely the flaw appears.

IV. THE STRATEGY: STRIKING FROM STRENGTH

"So in war, the way is to avoid what is strong and to strike at what is weak." — Sun Tzu

Once the Achilles Heel is identified, the strategy shifts from "defence" to "focused offense."

1. **Do Not Scatter Your Fire:** Do not argue twenty different points. If the opponent has no standing, that is the *only* argument that matters. Diluting a fatal argument with weak arguments gives the judge an excuse to rule against you on the weak points.
2. **The Surgical Strike:** Your Motion to Dismiss or Strike must be a laser-focused attack on that single vulnerability. "The Plaintiff is an unregistered entity; therefore, the Court lacks subject matter jurisdiction."
3. **Force the Retreat:** By attacking the foundation (Standing/Jurisdiction/Procedure), you force the opponent to defend their *right to be in court* rather than the *merits of the case*. This shifts the burden of proof back to them.

V. EXECUTION: THE ART OF THE PRESENTMENT

The "Presentment" (your legal filing) is the delivery mechanism of your strategy. It must be:

- **Irrefutable:** Based on black-letter law and the opponent's own admissions or failures.
- **Clean:** Free of emotional rhetoric or "sovereign citizen" jargon that alienates the court. It must sound like the inevitable conclusion of the law itself.
- **Final:** It should leave the opponent with no maneuvering room. If they admit the flaw, they lose. If they deny the flaw, they commit perjury.

VI. CONCLUSION

To win in the legal system is not to be "right" in a moral sense, but to be "correct" in a technical sense. By applying the Art of War—waiting, watching, studying, and then striking only at the confirmed weakness—the Ecclesia Law practitioner ensures that by the time they step into the courtroom, the outcome is already decided. The opponent has already lost; they just haven't realized it yet.

"The expert in battle moves the enemy, and is not moved by him."

The Envoy Protocol: Capacity Correction and the Office of General Executor

The solution to the "Agency Trap" is not to fight the "Artificial You," but to master its administration. The Envoy Protocol provides the framework for this transition from "Surety" to "General Executor".[1]

Severing Agency via Clausula Rebus Sic Stantibus (CRSS)

The protocol utilizes the international law principle of *Clausula Rebus Sic Stantibus* ("things thus standing") to rescind the presumed agency relationship formed at birth.[1] The argument is that the "fundamental circumstances" have changed—the individual is no longer an infant requiring state wardship but is a competent adult.[1] By severing the tacit agreement of agency, the individual moves into a position where they can occupy the "Office of General Executor" for the registered estate.[1]

The General Executor and Fiduciary Immunity

As the General Executor, the individual directs the administration of the legal person's accounts. Crucially, an executor is not personally liable for the debts of the estate provided they do not "intermeddle" with the estate's assets as a private citizen.[1] This position allows the individual to interface with the state from a position of "ecclesiastical or international exteriority," reducing exposure to domestic statutory processes.[1] The "Envoy" status reframes the standing of the individual away from "domestic administrative presumptions" and toward a "higher-order jurisdiction".[1]

The Commercial Engine: Recoupment through IRS 1212 and the 98-Series Trust

The ROS strategy is not merely philosophical; it is operationalized through a sophisticated commercial mechanism that allows for the recoupment of "abandoned credit" generated by the individual's interaction with the financial system.[1]

ECCLESIA LAW

The 98-Series International Grantor Trust

To interact with the federal OID (Original Issue Discount) system as a creditor, a 98-Series International Grantor Trust is established to act as a fiduciary proxy.[1] This trust obtains a separate EIN and establishes itself as the "Holder in Due Course" (HDC) of debt instruments.[1]

Feature	The 98-Series Trust as HDC	Strategic Benefit
Legal Status	Fiduciary proxy correcting "Nominee Misreporting".[1]	Operates as a "New Player" on the Monopoly board.[1]
Identification	Foreign Trust EIN.[1]	Distinguishes the creditor from the debtor fiction.[1]
IRS Compliance	Aligns with IRS 810 Code Matching.[1]	100% compliant and professional ERO-filed.[1]

Nominee Reconciliation and IRS Publication 1212

IRS Publication 1212 serve as the operational manual for correcting "nominee misreporting." In standard commerce, banks and tax offices act as "nominees," holding debt instruments and reporting OID income under their own omnibus accounts.[1] This leaves the generated credit "abandoned" in the system. The 98-Series Trust files a corrective Form 1099-OID, identifying itself as the "true beneficial owner" and diverting the abandoned taxes from the nominee's account to the lawful recipient.[1]

This process is supported by the "Three-Check Algorithm," where the IRS matches the Trust's claim against the nominee's Form 945 Master Record.[1] Once verified, the U.S. Treasury authorizes a disbursement, commonly coded as "IRS TREAS 310".[1] This mechanism allows the General Executor to satisfy the estate's liabilities using the system's own credit, effectively "playing the game of Monopoly to win" by using the banker's own currency.[1]
